The **PT280-24P** is a “mini” light duty, indoor pan/tilt that is factory prewired for feedthrough of all control functions (pan/tilt, motorized zoom lens, 24 VAC camera power, and video). All connections are made at the input connector, eliminating the need for wiring harnesses made in the field. This feature greatly reduces installation time, while increasing the reliability and serviceability of the system.

The **PT280-24P** will accept a maximum load of 15 pounds (6.8 kg) and is ideally suited for use with our EH3010/EH3014 and other small enclosures.

The unit is also capable of auto/random scan operation when used with our MPTAZ24DT control.

NOTE: VALUES IN PARENTHESES ARE CENTIMETERS; ALL OTHERS ARE INCHES.
